Forget everything
you know
about frying

Smokeless, odourless.

It only releases dry air free of odour particles.

Risk free

The chamber isolates the high temperatures and protects the operator. Anti-fire system with double sensor and control software.

Clean and easy

The frying process does not dirty the surroundings or other components of the machine.

**More sustainable and more
profitable than an open fryer**

*study and certification carried out by SGS. Ref N° 91117/507076/AF/17

ECOFRY SYSTEM

The perfect cycle

- Protects oil from the light
- Controls the temperature at two heights
- Minimises oil contact with oxygen
- Continuously moves the oil
- Condenses and filters

- 1 FRYING**
Protects oil from light, water and oxygen, extending its useful lifespan.
- 2 DRAINED, GOLDEN AND CRISPY, with extraction of:**
Evaporated water and oil and evaporated solid particles.
- 3 EXTRACTION**

FCE+ CARROUSEL

Large scale automation

An unparalleled pace

Without need to reload for each portion. Its innovative design allows five portions of 500 grams, four in the carousel and one in the frying chamber.

Multiple product management

You will only have to take the container full of the freshly fried portion and move one of the empty containers to the middle of the drawer.

FCE+ GOURMET

Quick and versatile

Load and fry

Suitable for medium demand, where it is most practical to load and fry. Equipped to fry two portions at once, while the third waits in the input hopper.

Intelligent electronics

Thanks to the advanced Touchscreen Display developed in the Fast Chef Elite + range, you will be able to intuitively control the number of portions, the language, the refilling of oil and many other options which will make your work easier.

FAST CHEF ELITE

Simple and efficient

Compact and efficient

Equipped to offer freshly made food of the highest quality in a fully autonomous and functional way. Its clean, efficient, compact system produces products in record time and with a perfect finish.

Autonomous and functional

Cooking with Fast Chef Elite is as easy as placing the product to be fried in the input hopper, pressing the corresponding programme and collecting the perfectly cooked and drained product when frying is finished.

37%
less
oil

A quality, healthy product

Fast Chef Elite+ reduces oil consumption by 37%* compared to an open fryer. This leads to a significant reduction of the intake of fats absorbed by the product, producing healthier, higher quality fried products.
